

Wordsworth equips wagons with Storm in technology drive

About Wordsworth Excavations

Established in 2003, Wordsworth Excavations is a highly professional contractor with the capability of undertaking bulk earthworks, ground stabilisation and demolition services nationwide. The company has completed projects valued up to £20m for some of the largest construction firms in the country with quality, health and safety, and compliance at the fore.

Our investment in Storm enables us to immediately locate our people, communicate with them instantly and increase efficiency throughout our operations. Instead of making multiple calls to multiple operatives, we can make one address and reach all of our people at the touch of a button.

THOMAS WORDSWORTH, Managing director

Challenge

Wordsworth Excavations is a market leader in bulk earthworks and excavation, demolition and ground stabilisation services. Wordsworth operates a substantial fleet including excavators, dozers, dump trucks and more than 25 eight-wheeler tipper wagons. With complex excavation projects, locating vehicles and being able to instantly communicate with fleet operatives is vital to ensure efficiency on each and every project.

Wordsworth serves sectors including commercial and industrial, regional distribution, quarrying, environmental, healthcare, residential, defence and security and infrastructure.

Results

Wordsworth Excavations, one of the biggest contractors of its kind in the UK, has equipped its fleet of wagons with the latest push-to-talk communications technology supplied by Storm.

The new Storm technology enables the company to immediately locate vehicles and instantly communicate with fleet operatives, helping to increase efficiency

in the management of large scale and complex projects.

Using the central command centre dashboard, Wordsworth are able to control instant communications for up to 700 operatives per group.

Wordsworth uses a combination of truck mounted and rugged devices.

Wordsworth Excavations supplies some of the largest construction companies in the UK and is investing in the latest technology to stay at the cutting edge of health and safety, quality and compliance in the industry.

LUKE WILKINSON, Founding Director of Storm
